

Mainz Biomed is an international, innovative, and emerging biotechnology company. It specializes in the development of in vitro diagnostics in the field of cancer prevention and targets laboratories, physicians, companies, and patients with its portfolio.

To support our team, we are looking for a

## **Manager Quality Control (m/w/\*)**

as a fulltime employee (40h/week), located at our headquarter in Mainz, Germany.

### **Your responsibilities:**

- You define and establish QC procedures, sampling, measurements, acceptance criteria for product manufacturing; a large portion of the manufacturing is performed by external suppliers/CMOs
- You gain an understanding of the needs and requirements in the IVD space and communicating them and the quality standards to the production team
- You devise ways to continuously improve the manufacturing process to ensure higher-quality goods
- You create, improve, and review new processes, and train staff
- You support defining specifications for raw materials from suppliers and monitor their compliance
- You collect and analyze data as per process, release raw materials, semi-finished and finished goods
- You ensure legal obligations, compliance with regulatory bodies are met
- You inspect the final output, compare to specifications, and approve or rejecting the final products
- You keep accurate documentation and perform statistical analysis
- You obtain feedback from the clients, attend meetings, submit reports, and assist external auditors and inspectors

### **Your profile:**

- A bachelor's degree in science or business-based programs
- Previous experience in production or manufacturing in the regulated IVD space
- Strong attention to detail, observation, and organizational skills
- In-depth knowledge of quality control procedures and legal standards
- Strong knowledge of mathematics, data analysis, and statistical methods
- Excellent communication and listening skills, ability to work in a team and personal integrity
- Excellent German and very good English language skills, both written and spoken

### **We offer:**

- A wide range of activities
- Attractive compensation including stock options
- Flexible working hours
- Flat hierarchical structures
- The chance to contribute to an innovative and highly motivated team
- 30 days of vacation per year
