

Mainz Biomed is an international, innovative, and emerging biotechnology company. It specializes in the development of in vitro diagnostics in the field of cancer prevention and targets laboratories, physicians, companies, and patients with its portfolio.

To expand our team, we are looking for a

Medical Science Liaison Director (m/w/*)

as a fulltime employee (40h/week), located at our headquarter in Mainz, Germany.

Your responsibilities:

- Function as a Commercial team support and a regional expert with respect to oncology test offerings, promoting exchange of clinical/scientific/technical information with national and international Key Opinion Leaders (KOL) and other physicians in the field of oncology.
- Facilitate education of broad healthcare provider community (Patients, KOLs, community physicians, medical directors, pharmacies and other HCPs) regarding oncology products via in-person or webinar-based presentations. This will include proactive and reactive communication of validated scientific data.
- Collaborate with the Chief Scientific Officer and other cross functional teams in identifying investigator-initiated research studies, as well as abstract and publication planning/execution efforts.
- Identify opportunities to close education gaps of internal teams in collaboration with the marketing team.
- Attend conferences and other key meetings and provide comprehensive meeting synopses and summaries of high impact abstracts/posters/oral presentations;
- Continuously update internal stakeholders on relevant medical and scientific knowledge as well as proactively developing market intelligence on existing competitor products and products in development.

Your profile:

- Advanced scientific or medical degree (PhD, PharmD, MD, MSN, BSN).
- Basic understanding of oncology required; basic understanding of molecular testing strongly preferred.
- 1+ years of MSL experience in a diagnostics, biotech or pharmaceutical industries, 3+ years' MSL experience strongly preferred.
- Fundamental understanding of the field of molecular oncology preferred.
- Existing oncology KOL portfolio or oncology experience preferred.
- Working knowledge of genomic or molecular laboratory testing.
- Public speaking and excellent listening skills, ability to effectively communicate relevant scientific topics and concepts.
- Exceptional interpersonal communication skills, strong inter- and intradepartmental management skills.
- Ability to educate and train and self-starter with an ownership mindset able to work and deliver on tight timelines.
- Excellent German and English (minimum B1) language skills, both written and spoken.
- Ability to travel (50%).

We offer:

- A wide range of activities, flat hierarchical structures.
- Attractive compensation including stock options.
- The chance to contribute to an innovative and highly motivated team.
- 30 days of vacation per year.

Are you interested? Then please send your application documents, your salary requirements, and your earliest possible starting date by e-mail to jobs@mainzbiomed.com. Your contact person, Darin Leigh, will be happy to answer your questions in advance via this e-mail address or by phone at +49 (0)6131/55428-60.
